siddhas were mystics of ancient india they believed that human race was created to excel in knowledge and help human societies form an

advanced civilization on the earth they knew that they needed to live longer and even become immortals to achieve this goal in indian context siddhas were considered as doctors but in western context such people were called philosophers nevertheless a deeper understanding of siddhas poetic scripts reveals their different faces such as scientific thinkers social reformers priest kings pioneers of advanced cultures etc siddhas speak about spirit soul and body in their scripts they also compare cosmos nature and earth in their science the unique attainment of siddhas could be their mastery over physical and cosmic sciences siddhas believed that physical science is comparable with cosmic science thus through their physical and cosmic observations they succeeded in inventing ambrosia of gods and many became gods themselves

this book on numerical methods actually this is in continuation to other three volumes of our book text book on engineering mathematics for b e course which cater to the needs of the first and the second year students the present book is to meet the requirements of the students of the fifth semester the need of which was being felt very anxiously in the treatment we have tried to maintain the same style as used in the other three volumes all the topics have been covered comprehensively but with clarity in lucid and easy way to grasp there is a good number of fully solved examples with exercises to be worked out at the end of each chapter
