gesar of ling is well known in tibetan history literature and folklore but for buddhist practitioners he is an enlightened tantric protector and deity an emanation of padmasambhava engaging in gesar practice is meant to generate positive circumstances and increase one's experiences and realization in buddhist practice gesar of ling is widely known as the hero of tibet's national oral epic considered the longest epic in the world but he is also the focus of buddhist practices in which his enlightened form known as king gesar the jewel becomes one of the numerous

spiritual methods offered by tibetan vajrayana buddhism to progress toward buddhahood this work contains the complete selection of practice texts compiled by the early modern tibetan polymath jamgon miphame and included in his collected works gesar personifies the ideal of the spiritual warrior who tames negative forces which obstruct the buddhist path the practices presented here detail poetic imagery of offerings and their recipients including gesar his court and the spirits who dwell in his personal belongings vajrayana practices such as these are considered mind treasures meaning rather than being composed they appeared fully formed as a transmission with the mind of a vajrayana master the practices in this book are meant to be done only by those who have received gesar dorje tsegal empowerment or entrustment with his life force the reading transmission of the practice and the associated instructions from a qualified master

detailed research on the un model convention s unique features the un model convention has a significant influence on international tax treaty practice and is especially used by emerging and developing countries as a starting point for treaty negotiations driven by the aim to achieve consistency in the international tax treaty practice the structure and content is to a large extent similar in the un model and the oecd model however whereas the oecd has historically focused its efforts on issues mainly relevant for developed countries the un tax committee has continuously attempted to specifically take into account tax treaty policies for developing countries when drafting and amending the un model convention compared to the oecd model convention the un model convention aims at giving more weight to the source principle popular examples are the pe definition in the un model which provides for a lower threshold than article 5 of the oecd model or article 12a on fees for technical services which has been introduced with the latest amendment of the un model convention 2017 and allows for a withholding tax to be levied on payments to non residents when the payer of the fee is a resident of that contracting state irrespective of where the services are provided interestingly in the discussions of the tax challenges arising from the digitalization of the economy the oecd and the g20 are also exploring options to allocate more taxing rights to the jurisdiction of the customer and or user i e the market jurisdictions as this has traditionally been the focus of the un model convention its unique features and developing countries practices could be taken into account when exploring new nexus rules that are not constrained by the physical presence requirement this book contains the master s theses of the full time ll m program 2018 2019 for which special features of the un model convention has been chosen as the general topic with this book the authors and editors do not aim at discussing each article of the un model convention but rather focus on the unique features of the un model convention which are explored in detail this is supplemented with an evaluation of the function and relevance of the un tax committee in the international tax policy discussion and with an analysis of the influences of the oecd s beps project on the un model
