millions of homes built before 1978 contain lead paint which poses a serious hazard to children under the age of 6 construction worksite compliance guide answers the most common questions about the requirements as mandated by the epa s renovate repair and painting rrp rule and osha regulation 29cfr 1926.62 packed with checklists tables and quick lookup materials this manual provides a step by step approach to determining job requirements and cost assigning environmental responsibility to all parties answering environmental questions and conducting comprehensive worksite audits in the pre bid phase of a renovation project thirty minute video clip discussing the latest detection and inspection techniques quick tips for identifying abating and disposing of lead guide to understanding and complying with osha and epa regulations case histories examples of work related situations based on 30 years of experience

a superbly organized well written detailed history of the sherman tank with hundreds of photos and diagrams included armor magazine the medium tank m4 better known to the british as the sherman was the most widely used medium tank by the united states and western allies in world war ii reliable relatively cheap to produce and easy to maintain thousands were distributed to the british commonwealth and the soviet union by the lend lease program it first saw combat in north africa

where it outclassed lighter german and italian tanks by 1944 the m4 was outgunned by the german heavy tanks but it still contributed to the fight when deployed in numbers and supported by artillery and fighter bombers a detailed insight into the development and deployment of the m4 this book covers the design and construction of the chassis turret engine armaments and munitions and differences between the variants of the m4 it covers the difficulties facing the crews who fought in this legendary tank exploring the training they received and the different combat methods perfected by the allies including landing from a landing craft maneuvering in the bocage of normandy and fighting in the snow fully illustrated with hundreds of contemporary and modern photographs and detailed diagrams this complete account provides all the technical details of the construction of the m4 its maintenance and repair and the logistics required to support it in combat whether you are a collector a modeler or simply passionate about military history this book will provide you with an unparalleled insight into the m4 period photos preservation shots interior details variant schematics archival excerpts armament and ammunition drawings and more make it your introduction to this legendary tank family cybermodeler

this compilation will provide ready reference for potential toxicity of chemicals found in the workplace and should be useful to occupational health physicians industrial hygienists toxicologists and researchers alphabetical arrangement by substances entries include such details as molecular weight wiswesser line notation synonyms and reference from which data about toxicity derived miscellaneous appendixes including one titled aquatic toxicity bibliographic references

index is composed of 3 sections basic classifications subject current va directives and rescinded va directives

this volume is an index of the technical laboratory and field reports and other reference material which appears in the bibliographies for the summary technical report of ndrc microfilmed

this book covers all existing international conventions referring to both the law of the sea and maritime law it is a full and up to date list of signatures ratifications and accessions of states and it contains a preliminary article explaining the significance of the different conventions

these photos are high quality and many focus on specific components further enhancing the value of this book for modelers armorama developed in response to the 1899 hague convention the 37 mm gun met the restrictions on the size of weapons that could fire explosive shells yet was also light and lethal enough to be used in battle after world war i in which the french model 1916 37 mm was used extensively several countries developed or adopted the 37 mm gun behind in their development of an antitank gun the united states relied on the german pak 36 37 mm design as a basis for development by the mid 1930s the us ordnance department designed the m3 37 mm gun and m4 carriage resulting in a towed antitank gun the first antitank gun in the us army this gun proved effective at the beginning of world war ii but as german armor protection increased it could not penetrate the frontal armor of many german tanks and was relegated to lesser roles however the gun proved effective against the japanese tanks and japanese strong points in the far east the us military used the gun on several production and experimental armored vehicles including the m3 lee medium tank the m3 stuart light tank the m5 stuart light tank the m8 armored car the t17e1 staghound armored car and the m3a1e3 scout car the gun was also used on several non armored vehicles the p39 aeracobra and selected naval vessels despite its small size the us m3 37 mm gun served throughout the war on many vehicles and performed exactly as designed fully illustrated this is the first complete account of the development

and use of the us 37 mm gun in world war ii
